Adams Morgan Group

As a newly emerging business, it is crucial and imperative that all dollars spent be directly accounted for and connected to a value (s) for the company. Furthermore, when small businesses seek other entities to fulfill service and or product need (s), we want to be assured that provided services and products meet our need. When I began the planning stages for my company, the AdamsMorgan Group, I needed to have a website designed which would fully embody the concept of my vision for my company. After talking with at least twenty companies and individuals, I was not satisfied with any of them. Actually, it was as if I were speaking in a void. They were simply not listening and wanted to create concepts for me that had nothing to do with the services, which my company provides to clients. When I contacted Mary's Designs, I simply could not believe that finally, I had a website designer who listened to me, understood the concept of my vision and asked thoughtful questions to affirm that "we" both were on the same page. It was unbelievable, given my experience with all of the other website designers. I have found my relationship with Mary's Designs to be the most pleasurable working experience encountered since the inception of my company. To engage a company for services and then to be assured that the "product delivery" will be what is desired provides a relief for the client. I continually receive compliments regarding the design, accessibility, and layout of my site. Mary's Designs is highly recommended and preferred professionally by the AdamsMorgan Group and personally preferred by myself for our website services.

Hosting, graphic design, creative layout, plus a cheerful answer to my questions no matter what time I call....these are the reasons why I recommend Mary of MaryDesigns to everyone I meet who needs a web site! After calling over a dozen web site designers and getting no response, or finding them lacking in customer service, I found a treasure in MaryDesigns. Immediately, I knew that I had found the person that would be the best for me. Mary professionally uncovered my needs, and helped me determine the best

path to quickly realize my business objectives. She researched the subject of my site to become more familiar with the industry my company specializes in. She WORK creatively within my budget, and provided excellent, experienced advice on everything dealing with my site, from digital photography to the best meta tags to allow my site to be easily found by search engines. Our meeting was truly ordained by God, and I am now blessed to have a beautiful, easy-to-navigate site, but much more than that, I have a new friend who has my best interests at heart! Love ya girl!

My first email to MaryDesigns inquiring about an idea for a flash-splash was on a Thursday evening after a recommended visit to a site MaryDesigns had done. MaryDesigns responded to my email later that evening and hit a home run on the first pass. With some very minor tweaking we had it installed Monday afternoon! MaryDesigns' obvious forte is customer service and ease of doing business, which is at the heart of our own business. It was truly a pleasure working with MaryDesigns, I would recommend them to anyone that is looking for that extra touch of customer service and creative edge.

I just wanted to take a minute to send you a heart felt THANK YOU for making the design and introduction of our website a Dream! Our website is Fantastic and I am happy to report that new visitors and new sales from our website continue to increase every month since you launched the site for us. I could not be more happy with your work and would gladly recommend your services to anyone needing a website...or needing to update a webpage.

Simply put...if you are searching for a web designer who covers all the bases for you and then look no further. Three times prior to finding MaryDesigns I tried to get a site up. First time I found what I thought was a bargain price. The designer built the site and I was ready to go. Found out later that the site was built with technology that was not search engine friendly and I was basically spinning my wheels. Second time I was put in touch with a designer who cost a chunk of money, made all kinds of promises, built a very nice looking home page but never came through. Always some reason for a delay. The project was just taking too long so I cut my losses and went looking again. Third try, I told the designer what I wanted the pictures I needed etc. Three days later he presents for my approval one of the ugliest color schemes I have ever seen. The pictures he used were taken from other existing sites, another doom and gloom experience. Now I have to keep going. I have dug such a financial hole for myself. Fourth try was with Mary Designs. I submitted my information and received a response immediately. Given my previous experiences I was totally un-prepared for the service I received. In just a couple of days I was presented with an ORIGINAL webpage design, with a unique and ORIGINAL logo. Mary's work speaks for itself as you can see in her 'Webfolio' section. What puts Mary Designs in a class above the rest is Mary. She will get in the 'trenches' and work with you. Give you ideas, share her knowledge with you. I am not a 'techie' type person. Mary will communicate to you on a level you can easily understand. She goes above and beyond what you could ever expect. Best of all she does it with a fantastic personality and sense of humor. The management system she provides for you to maintain your site MDcms is outstanding. Very user friendly and has all the options and variables you will need. There is only one answer for your web design needs....MaryDesigns!

Executive Ministry Solutions

If you want impressive results from an expert in the field of web design, you need to seriously consider MaryDesigns. I came in contact with MaryDesigns because Mary was a guest lecturer for one of my daughter's courses at Purdue University. Not only is Mary extremely talented and knowledgeable in this field, but she is very helpful and fun to work with. Developing a web page for Executive Ministry Solutions was one of the best first steps that we took in launching our ministry/business. The web design process helped us think through each service and product that we were to offer. It forced a complete research of these services in more detail than during the original business plan development. Through application, we learned some ins and outs of e-retailing, domain registration, web search engines, web surfer's desires to help us focus marketing and the list goes on . . . The result of our partnership with MaryDesigns is a professional looking web page which is easy to navigate, very informative and it improves marketing as we can direct potential clients to www.executiveministry.com for additional information. In addition to the web page, MaryDesigns helped us design our unique logo. I know that the web page is working through a review of web stats and when we meet with potential clients they come with printed copies of the web page for

First Christmas Project

This year we took on the formidable task of turning an idea into a ministry/business. I reflect as the year comes to a close, and I know that one of the best things that happened to us was finding MaryDesigns. Mary not only created a presence for us on the internet, but guided us through the process of understanding how the process works. She created a site that was far nicer than anything I could have imagined and was quick to respond to all of our concerns. We really felt like we had an undeserved high degree of personal attention as with a craftsman who is passionately concerned with the excellence of his craft. We are a brand new company with only seasonal sales and through her web site we did sales in 12 states in our first few months. We couldn't be happier with MaryDesigns as our web designer and I thank God regularly for having her on our team.

Fishwerkz

Chris had an idea. God had a plan. FishWerkz was merely an idea until we were led to MaryDesigns by what was positively God-given direction. Mary was able to transform a vision into a reality in no time. When we had an idea, she already had it done. When we came up short, her unlimited creativity came through in her design work every time. Most of all Mary at MaryDesigns was very easy to work with...the two co-founders of FishWerkz tend to have highly-motivated, compulsive personalities and Mary instantly adapted to our needs as a business and as a ministry. Because of Mary's unspable passion and impressive creativity, FishWerkz has had a successful launch! We look forward to what the future holds and pray that our partnership with MaryDesigns continues to receive God's blessings!

I just wanted to thank you for such a great website! The staff and my family couldn't have envisioned a better website, and we are so pleased that this is completed in time for the summer season!

Hill's Napa Autocare

We wish to thank you for your hard work in designing and setting up our web site for us. We had been planning something for a long time, but your intervention at the right time sure saved us a bundle in fees and wasted time. We really like what you did for us here at Hills Napa Autocare. Not only is the web site fun and easy to navigate, your footwork in the search engines has already produced a significant increase in business--with our web site only running for 2 months! We heartily recommend your professional services to anyone--they can't go wrong. I must also admit that we did not give you much to work with --so your genius really came through. Thanks again from Hills Napa Autocare!

Indebted to you we remain,

I wanted to let you know how much I have enjoyed working with you and how grateful I am that I found MaryDesigns. There are many talented web designers out there, but as you know, I was having trouble finding a web designer that was also easy to work with. I can honestly say that working with you, Mary, has been a pleasure from start to finish. Your kind heart, professionalism, communication skills and last, but not least - your talent have turned a burden into a treat. Thank you for creating such a wonderful web site for me and for your patience with my lack of technical knowledge! I plan on recommending you to everyone I know, so get ready for all the business I hope to send your way! Thanks, Mary!

The service that I received, and continue to receive from MaryDesigns Web Studio is exceptional. Mary was very responsive to my requests and needs throughout the design process of my website, and still continues to be even as my site is up and running. With Mary Designs, my website has been placed at the top of the list in web searches. I have

SMART Communications

This web site design service is highly recommended by our company. We have been very impressed and appreciative of this designer. We have experienced a commitment to quality and excellence in design. The utmost concern was made on behalf of the designer to create a web site that was an accurate reflection of our company. Even though we were uncertain as to our exact content, the designer always responded with patience and creative suggestions. It was due in large part to her creative vision that our site exceeded all of our expectations. While we maintained strict control over the actual content, we realized that if given some latitude in development, the designer continually surprises and impresses us with her natural creative design abilities. Had we not allowed her to experiment with different techniques unknown to us, we would undoubtedly have obtained a lower impact web site. The outcome of our experience with this designer has been a masterfully designed web site that gives our company pride in who we are and what we do. So, once again, we highly recommend this service to anyone contemplating establishing a web site for either themselves or their company.

Sudsberry & Associates

Working with Mary Designs has been a wonderful experience. We are a small office and have been searching for years for someone to help us have a quality web site to showcase what we offer - we felt like there was no one out there to help us. We had several quotes from companies, but they were all priced (and set up) to market a larger company, we felt lost. Then we came across Mary Lewis, from Mary Designs. She was warm, professional, fast and made us feel like we were her only customers. Not only is our site doing great, it looks great! We are constantly getting compliments, but more importantly, we are constantly getting clients that have found us through the search engine, and that is what we were hoping to accomplish. I am proud to tell clients to check out our web site and know that it is user friendly and professional. Thanks Mary Designs!
